

DECORATIVE FACINGS AND FINISHES

SUITABLE FOR USE ON AHMARRA TIMBER DOORS.

ahmarra

Our experience in door manufacturing means that we can help you to create the most suitable and striking door designs for your project. This includes an almost unlimited range of decorative facings and finishes to complement the style of your door.

WOOD VENEER

MATCHING SERVICE

The use of veneer offers unlimited creative possibilities. Even the most difficult and exotic woods can be made architecturally stable as a veneer. You can achieve a uniform, perfect finish and using veneers avoids the problems associated with solid wood such as knots, splitting and staining.

ROSEWOOD

We share our customers' concern for sustaining the Earth's resources. We only use wood and facings that are legally logged and from responsibly managed forests and all of our materials are certified by the FSC® (Forest Stewardship Council®). Our laminates, veneers and paper veneer are all FSC® certified.

Sliding pocket door with an American Cherry crown cut veneer, selected from our Hotel & Hospitality range

STAINED VENEER

Stains are applied prior to applying the final finish to highlight the grain characteristics of the veneer and where appropriate match or complement furniture and flooring.

Flush doors with a black ash finish and striking herringbone design, selected from our Hotel & Hospitality Range

These pages only represent a sample of our facing options. Colours displayed may vary slightly from samples due to camera quality and screen display. For a true representation, please call for a sample.

Blenheim two panel double doors finished with Woodrow Oak stained veneer, selected from our Artisan Panel Door Collection

LAQUER PAINTED

A hard wearing pigmented lacquer finish is applied using modern spray equipment.

COLOUR MATCHING SERVICE

For projects where doors in a specific colour, perhaps to match other elements of an interior design scheme are required, we offer a colour matching service. Provide us with a RAL or similar colour reference, and we will match the colour for you.

LAMINATES

High pressure laminate is manufactured through fusing multiple layers of impregnated paper under high pressure and temperature to create a hard wearing, durable and hygienic surfacing material. The laminates are then bonded to the core of the door. Laminates are used due to their ease of maintenance and wide range of colours and finishes.

Ahmarra supply laminate from Polyrey® and Formica®. Some of our standard laminate colours are shown below but we are able to supply laminates from most major suppliers in a wide range of colour options. Please contact us for the full range.

Benefits

- Extensive range of trendy designs: 100 decors and 5 textures
- Highly resistant surface (impact, abrasion, stains, chemicals)
- Nonporous surface: easy to clean and resistant to disinfection protocols
- Antibacterial Sanitized® treatment as a standard, eliminates 99.9% of bacteria on the surface
- FSC® certified
- Volatile organic compounds (VOCs): Greenguard Gold certified
- Suitable for high-traffic public environments

PRIMED ECO-VENEER

The specially formulated eco-friendly paper veneer is applied to door blanks in the same way as a veneered layon. The pre-primed paper has been designed as a time saving initiative for paint grade doors and is ideal for under-skinning and concealing any lipping ensuring a smoother finish.

Benefits

- Economic
- Surface damage can easily be fixed on site
- FSC® certified
- Can be painted on-site to match the projects design scheme
